EDUCATION

Bachelor of Technology in Computer Science

August 2014 - May 2018(expected)

PES University, Bengaluru, Karnataka

CGPA: 8.82/10.00

CBSE, Class XII

June 2012 - April 2014

Kendriya Vidyalaya, Hassan, Karnataka. 90%

CBSE, Class X March 2011 - March 2011

Kendriya Vidyalaya, Hassan, Karnataka. CGPA: 9.8

SELECTED WORK EXPERIENCE

* Software Contractor - ApexPredator Project,

Ministry Of Defense, Govt. Of India

* Software Development Internship,

@WalmartLabs - Data Analytics

* Research Internship,

KAnOE - TEQIP II, PES University

July 2017 - Present

May 2017 - July 2017 May 2016 - March 2017

SELECTED AWARDS AND ACHIEVEMENTS

- Ranked amongst amongst top 10 teams out of 10000+ participants in UnitedByHCL International Hackathon 2017, for a project on AI based content ranking algorithm for **Ubisoft SA**, held at Manchester, UK

 August 2017
- Awarded the Inspiration Award in Smart India Hackathon 2017 World's Largest Hackathon for a project on real time data analytics and intelligence for Dept. of Defense Production, Ministry of Defense, India.

 April 2017
- Selected for publication in World Digital Library, an International peer reviewed journal. January 2017
- Awarded a prize in **Best Paper Award** category at **International Conference in Digital Libraries**

December 2016

• Represented India as a Student ambassador to Japan as a part of JENESYS

June 2012

• Awarded the National Talent Search Examination (NTSE) scholarship by the Govt. Of India

2011

• Won the National Level Gold Medal, in abacus speed math competition

August 2008

• Awarded the distinction award by PES University

2014-present

SELECTED PROJECTS

Empherical analysis of the Indian political ecosystem as an application of generic textual processing

May 2016 - Present

Project Under KAnOE - TEQIP II

Mentor: Dr. Kavi Mahesh

- · A cloud-based text analysis platform that enables the procurement, integration, storage, and analysis of large text-based data sets from multiple sources or domains.
- · Full implementation of the platform with end-to-end integration between multiple technologies such as Python, nltk, Node.js, JavaScript and D3.js. Extensively used Machine learning and implemented custom Machine Learning algorithms.

· Platform successfully applied to the Indian political domain.

Distributed columnar key value data-store

August 2016 - December 2016

Project as a part of curriculum

- · A demonstration of the implementation of a distributed columnar NoSQL key-value pair based data-store.
- · support for multiple nodes, node management, centralized control, replica management and fault tolerance. Built the architecture suitable for 'read once write consistently' type of applications.
- · Built the application from scratch with Python and NodeJS.

A centralized hyperlocal destination discovery service

August 2015 - Present

http://trawel.co.in

- · A hyperlocal destination discovery service running on the web. Centralized curated web repository which lets users plan trips to places around their city within minutes.
- · Built using NodeJS, ExpressJS, MongoDB, Handlebars and D3.js. Analytics and data discovery done using Java and Python respectively along with End-to-end analytics and live Google Maps support.
- · Gets thousands of active hits each month.

MediaAnalytics

Project as a part of the curriculum

August 2016 - December 2016

Mentor: Dr. Gowri Srinivasa

· Providing relevant techniques and algorithms to human analysts in-order to enable them to draw insights from online news media. Prime focus in enabling the human analyst with powerful analysis tools. Applied a human-centric generic textual analysis platform to conform to the domain of mass media for effective human-based content monitoring and optimization.

Other projects: Machine Learning Algorithms from scratch in Python, Parallel Processing, Computer Assembler, Similarity based Text Analysis in Java.

PUBLICATION

Madhu Nadig, Bhargav K N, Kavi Mahesh "Empherical Analysis of Indian political ecosystem as an application of genetic textual processing" Vol. 2 - Issue 5, International Conference in Digital Libraries (ICDL 2016), ISBN: 978-81-7993-653-5

December 2016

Madhu G Nadig "Computed Science-to-Economy Conversion for Better Farming and Forestry" Vol. 4 - Issue 6, International Journal of Research in Computer Science (IJORCS 2015), ISSN: 2249 - 8257 June 2015

SKILLS AND INTERESTS

Interests Machine Learning, Data Visualization, Data Anlytics, Neural Networks, Algorithms,

Back-end Programming, NLP, Product Development and Parallel Processing

Skill-set Python, Node.js, Java, C, C++, JavaScript, Algorithms, MapReduce, D3.js,

NLP - Python nltk, Machine Learning - sklearn, Data Structures, Linux

RELATED COURSEWORK

Algorithms, Data Structures, Machine Learning by Andrew Ng(Coursera), Data Analytics, Big Data, Parallel Processing, Text Mining and Analytics(Coursera), Web Technology I and II, Cloud Computing
